

## Surgical Technician

### **Job Description**

Integrated Pain Solutions is seeking an experienced and energetic Surgical Technician to work in our AAAHC-certified Ambulatory Surgery Center, Gemini Surgery Center, which specializes in Interventional Pain procedures.

### **Responsibilities**

*Responsible* – works independently, in a safe and appropriate manner. Demonstrates both problem-solving and problem-prevention skills. Must be able to relay information to appropriate personnel concerning a patient's condition. Attends and participates in continuing education programs.

*Sensitive* – displays sensitivity to the needs of patients and co-workers. Demonstrates good communication skills and empathy. Must have patience, tact, and enthusiasm as well as willingness to handle difficult situations.

*Timely* – recognizes time as a patient's most valuable resource and responds promptly to needs. Strong organizational and time management skills. Embraces change and able to handle multiple demands at one time.

*Accurate* – works carefully and precisely, with attention to detail. Good organizational skills and utilizes resources wisely. Operates equipment and performs technical skills according to policies and standards; learns new skills and seeks assistance appropriately.

*Thorough* – following and completing assignments as given by the OR Manager/Charge Nurse. Preparing surgery suite for surgical procedures for patient care.
